PERSONAL PROJECTS

AskAI (01/2023 - 01/2023)
- A low-scale clone of ChatGPT was made using OpenAI API. Client-side deployed on Vercel and server-side on render.com. Removing the .env file, and setting the environment variable on the remote server ensures no public leakage of the API key and 401 error. The application is made using HTML CSS Javascript ViteJS NodeJS Nodemon Express OpenAI API.

Circle (01/2023 - 01/2023)
- The circle is a chat application made using ReactJS, JSX, React Hooks, React router, CSS, NodeJS, Firebase, and Chat engine. It opens with a sign-in page that uses authentication. A signed-in user can create or delete a chat group, add other users, send text, images, etc.

Personal Portfolio (12/2022 - 01/2023)
- My personal portfolio is made using HTML5, CSS3, Bootstrap5, JavaScript, Typed.js, A.O.S. It shows details about me, skills, projects, contact, a terminal portfolio

Microtech (12/2022 - 12/2022)
- Microsoft website clone made using HTML, CSS, JavaScript, and Bootstrap. Also made some changes to the carousal, links, icons, buttons, footer, etc.

Doctors Clinic (12/2022 - 12/2022)
- Doctors Clinic website is made using HTML, CSS, Javascript and Bootstrap5. It is a landing page for a clinic that lists the medical facilities and the doctors' names
